Career Objective

Aspiring software professional seeking to begin my career by applying my Computer Science knowledge and programming skills. Committed to continuously learning new technologies and contributing to the development of high-quality software solutions while supporting organizational growth.

Education

B.E. in Computer Science and Engineering 2024 – 2028
V.S.B. College of Engineering Technical Campus Coimbatore
Current CGPA: 8.32 / 10

Higher Secondary (Class XII) 03/2024
Swamy Chidbhavananda Matriculation Higher Secondary School Coimbatore
Score: 86%

Secondary School (Class X) 05/2022
Swamy Chidbhavananda Matriculation Higher Secondary School Coimbatore
Score: 89.6%

Technical Skills

Programming Languages — Java, Python • **Developer Tools** — GitHub, Visual Studio Code • **Areas of Interest** — Web Development

Soft Skills

- Good communication skills
- Teamwork
- Self-learning

Projects

Neuro Hijacking with EEG Headset for Personalized 3D Hologram
Designed a concept system that uses EEG brain signals and AI to convert human thoughts into personalized 3D holograms, enabling controller-free interaction while addressing privacy and security challenges such as neuro-hijacking.

AI-Driven Train Induction Planning System (SIH)
Full-stack (React/Spring Boot/MySQL) decision-support system automating metro fleet induction using an explainable, rule-based scoring engine with authentication and audit trail.

Certifications & Internships

Internship in Basics of Full Stack Web Development and Canva Design 05/2025 – 06/2025
Pantech Solutions

Certification in Programming in Java
NPTEL, scored 83% (Silver Elite)

Completed Internship entitled "Web Development" 08/06/2026 –
NxtLogic Solutions 07/07/2026

Declaration
